Totally understand. Is it currently linked to the EPA page related to the spill? If not, we should create such a link.

My related question is whether there are other public facing pages with information or documents related to Animas River/GKM that we should also be aware of and link?

Stacey, that's a standard page. You'll see the entire list of R8 Superfund sites and their detailed documentation here:

<http://www2.epa.gov/region8/superfund-sites-region-8>
